AREAS OF EXPERTISE:

Costs and Litigation Funding Credit Hire Litigation Serious
Injury Other Work

Serious Injury

Since pupillage Andrew has always worked in the field of personal injury work. At the current time his work includes catastrophic personal injury claims, fatal accidents claims, and large value industrial disease claims including mesothelioma and other asbestos related conditions. He accepts instructions both on behalf of injured people and insurance companies.

George Andrew Connor v Castle Cement and others [2016] EWHC 300 (QB)

Profile

For many years Andrew had a broad common law practice including undertaking substantial amounts of town and country planning work and public law cases. He now principally focuses his efforts in the fields of costs and litigation funding, credit hire litigation and serious injury litigation.

He has a national practice in all these fields and has an established reputation both in the professional directories and the legal profession as an expert in his areas of practice. He is known as a problem solver, and has particular expertise in the field of civil procedure.
